

## King Pharmaceuticals Celebrates New Office

**K**ing Pharmaceuticals Canada recently celebrated the official opening of their new office at 2915 Argentia Road, Suite #7, in Mississauga, Ontario.

King, headquartered in Bristol, Tennessee, is a vertically integrated branded pharmaceutical company. King Pharmaceuticals strives to be a recognized leader and partner of choice in bringing innovative, clinically-differentiated therapies and technologies to market in cardiovascular/metabolics, neuroscience and hospital/acute care. One of its therapies, EpiPen® (epinephrine auto-injector), is a device that administers epinephrine (also known as adrenaline)—the life saving medication recognized by healthcare professionals as the treatment of choice for severe allergic reactions. For more information about King Pharmaceuticals Canada please visit the new Canadian website at [www.kingpharm.ca](http://www.kingpharm.ca). For more information about EpiPen®, please visit [www.epipen.ca](http://www.epipen.ca).
